AGENDA

- A** About Wavestone
- B** 2018/19 annual results
- C** Outlook and recent news

A disappointing fiscal year closure for 2018/19 and a shifting business climate

/ Disappointing performance over recent months

- > a rise in the value of consulting services that has helped boost sales prices...
- > ...but mirrored by an insufficient rate of order uptake, leading to a sharp erosion in consultant utilization rate

/ Greater economic uncertainty

- > target clients more cautious and judicious
- > especially in the banking sector

/ A settling human resources picture

More intense business development efforts; continued focus on growth

/ An increase in the level and effectiveness of business development activities

/ Maintaining high levels of recruitment

- > pursuit of growth, even if it means a brake on improvements in consultant utilization rate in the short term.
- > target of over 600 gross hires
- > without losing focus on sustained efforts to bring staff turnover under control

/ Continued pursuit of external growth, especially internationally

- > aim to make one to two acquisitions over the year
- > with international targets as a priority

Pursuit of the Wavestone 2021 strategic plan

/ Ambitions to 2021 confirmed...

/ ...but growth objectives under greater pressure

- > in France, growth has been more lackluster in recent months
- > internationally, high valuations are hindering M&A activity
